EDUCATION

Indian Institute of Information Technology Ranchi

B.Tech in Computer Science and Engineering

2028

CGPA : 8.53

TECHNICAL SKILLS

Languages: C, C++, Python, JavaScript, PHP

Developer Tools: Git, GitHub, VS Code, Chrome DevTools, Microsoft Excel, Microsoft PowerPoint

Concepts: Agile Methodology, REST APIs, Debugging, Code Reviews, Software testing

Frameworks: React.js, React router, Tailwind CSS, NumPy, Pandas

Web Technologies: HTML5, CSS3, Responsive Design, PHP

Coursework: Data Structures and Algorithms, Object-Oriented Programming, Operating Systems

PERSONAL PROJECTS

Sorting Simulator – Interactive Algorithm Visualization Tool

Feb 2026

Tools: React.js, TypeScript, Tailwind CSS, JavaScript, HTML5, CSS3

- Built an interactive sorting algorithm visualizer in React featuring Bubble, Selection, Insertion, Merge, and Quick Sort with real-time animations
- Leveraged React state management for dynamic array generation, step-by-step execution controls, and smooth UI rendering
- Structured the codebase using modular React components with reusable logic, promoting scalability and long-term maintainability

FocusFlow – Productivity Timer

Jan 2026

Tools: JavaScript, React, CSS

- Built a front-end web application with React and CSS, focusing on usability and clean UI
- Troubleshoot timing and state-related bugs to ensure reliable behavior across browser tabs
- Followed component-based architecture and front-end best practices
- Enhanced user experience through responsive design and intuitive interactions

TraceMe - Digital Footprint Simulator

Jan 2026

Tools: JavaScript, HTML, CSS

- Designed and implemented an interactive website using HTML, CSS, and JavaScript
- Debugged DOM and event-handling issues to ensure smooth user interactions
- Improved application responsiveness and performance through optimized event listeners
- Demonstrated understanding of how modern websites collect and process user data

CurrenSee – Simple Currency Converter

Dec 2025

Tools: JavaScript, HTML, CSS

- Developed a responsive web application using HTML, CSS, and JavaScript
- Integrated external APIs and handled asynchronous data fetching with error handling
- Debugged API and UI issues to ensure accurate real-time conversions
- Focused on cross-device compatibility and performance optimization

ACHIEVEMENTS

- Solved 700+ problems across CodeChef and Codeforces
- Holds a 3-star rating on CodeChef
- Achieved a maximum rating of 1421 on Codeforces
- Secured Global Rank 235 in CodeChef Starters 196
- Regular participant in CodeChef Starters and Codeforces contests
